

Sustainable Energy Europe 2005-2008

A European campaign to raise awareness and change the landscape of energy

Sustainable Energy Partnerships Declaration

The **Sustainable Energy Europe 2005-2008** Campaign contributes to the achievement of EU energy policy goals and targets in the fields of renewable energy sources, energy efficiency, and clean transport and alternative fuels. Within the context of the Campaign, specific achievable benchmarks for 2008 are provided, in order to measure the progress of sustainable energy actions and serve as goals for decision-makers and planners.

The objectives of the **Sustainable Energy Europe 2005-2008** Campaign are to raise the awareness of decision-makers (at local, regional, national and European level), spread best-practice, ensure a strong level of public awareness, understanding and support, and stimulate the necessary trends towards an increase in private investment in sustainable energy technologies by encouraging the commitment of Partners from local to European levels.

The **Sustainable Energy Europe 2005-2008** Campaign is specifically to support and promote actions in the following nine Main Campaigning Areas :

- **Sustainable Energy Communities - Regions**
- **Sustainable Energy Communities - Cities**
- **Sustainable Energy Communities - Islands and Rural Areas**
- **Sustainable Energy Communities aiming at 100% RES Supply**
- **Sustainable Energy in Transport**
- **Sustainable Energy in Buildings**
- **Sustainable Energy in Lighting Systems and Appliances**
- **Sustainable Energy Co-operation with Developing Countries**
- **Sustainable Energy Promotion and Communication**
